ECLEAN INTIME

INTIMATE HYGIENE FOAM

A series of intimate hygiene products has been developed to improve and maintain women's health.

- ✓ Gently cleanses
- ✓ Supports and restores the natural microflora
- ✓ Eliminates discomfort, provides a lasting feeling of freshness and comfort
- ✓ It has antiviral and anti-inflammatory properties
- ✓ Prevents infections and irritations

INTIMATE HYGIENE FOAM
ECLEAN INTIMATE CARE
Daily care
with lactic acid

The light texture gently cleanses the intimate area, eliminating the occurrence of irritation. Foam suitable for hypersensitive skin, recommended for daily use. The high content of natural lactic acid and a pH of 3.5 promotes the growth of lactobacilli, thereby not only supporting, but also restoring the natural microflora of the intimate zone. A mild detergent component ensures gentle cleansing without irritating the mucosa.

INTIMATE HYGIENE FOAM
ECLEAN INTIMATE ACTIVE
Glycyrrhizic acid
antiviral effect

The soft foam formula gently cleanses and provides a feeling of cleanliness and freshness. Due to the content of glycyrrhizic acid, it has anti-inflammatory and antiviral properties. It is recommended for daily hygiene procedures (especially on critical days and during the treatment of gynecological and urological diseases), after practicing active sports and visiting the pool or swimming in open water. Eliminates discomfort, irritation, redness and itching.

Packing: 250 ml

LAMICID

An agent with antifungal and antibacterial

LAMICID - foot lotion spray

It is used to treat the skin of the feet, shoes, and linen as a component of complex therapy for fungal skin lesions and for prevention. It has antimicrobial and antibacterial effects.

Peppermint essential oil has deodorizing and cooling properties, due to which the product removes odor, reduces burning sensation and itching. Thanks to the presence of natural components, the spray stimulates cell renewal, promotes skin regeneration, moisturizes the skin, and restores lipid balance. Dries quickly, leaving no residue on the skin and no sticky film.

LAMICID - nail plate lotion drops

Drops have an antifungal and antibacterial effect. The agent effectively nourishes and restores the nail plate, prevents its delamination.

Peppermint essential oil and eucalyptus extract have deodorizing and cooling properties, so the product removes odor, reduces burning sensation and itching. Easy to apply to affected areas of the nail plates. Dries quickly, leaves no sticky film.

LAMICID - skin lotion gel-balm

The skin care product has a delicate gel-like structure that is easily absorbed without leaving a sticky film. It has antifungal, antimicrobial and antibacterial effects, moisturizes and nourishes the skin, reduces the feeling of tightness and dryness.

Volume: 15 ml

FOOT SPRAY

FOR TIRED LEGS

DEODORIZING

Foot spray effectively relieves the feeling of heaviness in the legs, eliminates swelling. Essential oils of lavender and rosemary relieve muscle spasm, reduce pain. Horse chestnut extract improves micro-circulation and strengthens the walls of blood vessels, is an effective prophylaxis of varicose veins. Improves blood circulation, relieves a feeling of heaviness in the legs. Menthol and peppermint essential oil eliminates the burning sensation, effectively cools. The agent gives the feet a feeling of lightness and freshness.

Volume: 100 ml

The product neutralizes unpleasant odors, gives a feeling of comfort and cleanliness. Tea tree and sage essential oil have an antiseptic effect. Lauric acid has anti-microbial properties, actively eliminates bacteria, fungi and microbes, enhances the protective properties of the skin. Menthol and peppermint essential oil relieves irritation and itching. The spray can be used to deodorize shoes and as a prophylactic agent before visiting gyms, pools and saunas.
